QUANTUM COMPLETE BUNDLE

All-in-one recording and monitoring bundle with Fender Quantum LT 2 interface, Eris 3.5 Gen 2 studio monitors, M7 MkII microphone, HD7 headphones, and Fender Studio Pro software.

Take your music production to the next level with the Fender Quantum Complete Bundle — a complete recording and monitoring solution for aspiring professionals and creative beginners alike. Featuring the Fender Quantum LT 2 interface, this bundle offers the acclaimed MAX-HD mic preamp and a Fender-designed instrument input for flawless guitar, bass, and vocal capture.

Record with clarity using the M7 MkII condenser microphone while monitoring every detail through HD7 headphones or Eris 3.5 Gen 2 studio monitors. The bundle also includes all essential accessories — mic cable, desktop stand, and speaker cables — so you can set up quickly and start creating. Plus, Fender Studio Pro Perpetual provides a complete production suite with intuitive workflow, authentic Fender amps and effects, and world-class mixing and mastering tools. Perfect for home studios, mobile setups, or outfitting a second workspace, the Fender Quantum Complete Bundle delivers everything you need to create, produce, and perform.

KEY FEATURES

- **Complete home or mobile studio:** interface, monitors, microphone, headphones, cables, and microphone stand
- **Fender Quantum LT 2** interface featuring a MAX-HD mic preamp with integrated line input and Fender-designed instrument input
